

OCTOBER 1ST, 2024

11:00 AM - 1:00 PM

Pipe Trades Training Center
780 Commercial Street
San Jose, CA 95112

Join us in collaborating to forge new connections and nurture existing ones.

Presented by our Director of Training, Plumbing, Steamfitting and HVACR Curriculum Coordinators.

Our team will go over:

- Changes implemented at the Training Center over the past two years
- An update on the apprenticeship program and journeylevel training/continuing education
- Our goals to improve training as a whole
- Mental Health and the changing nature of our industry

Industry partners and vendors will showcase new technologies, products or tools.

Lunch will be provided for all attendees and participants.

Pipe Trades Training Center Rekindles Partnerships with Contractors to Strengthen Training for UA Local 393

Collaboration Will Be the Key to The Improvement of Training

SAN JOSE, CA (July 24, 2024) Pipe Trades Training Center hosts Building Our Future on October 1st, 2025 from 11:00AM – 1:00 PM in hopes of forging new connections and nurturing existing ones.

The signatory contractors play an immense role in the training process. To continue improving our training, we hope to revive our partnership with our contractors. Building Our Future will provide our contractors with the opportunity to let the Training Center know how we can improve and meet their needs even better.

The Training Center will present changes that have been implemented since Brian Murphy became Director of Training, goals for training and the long-term vision for the program and the building. The event will also showcase our Mental Health & Wellness Program, the newly established Women's Committee: Women Advancing Construction, and the campus events that have increased member engagement and community within the Training Center. We also will have industry partners and vendors showcasing new products.

Signatory contractors are a huge stakeholder in the training process, and it is only through collaboration that we can continue to provide highly skilled piping industry professionals that they can rely on.

About The Pipe Trades Training Center

Pipe Trades Training Center is the training facility that supports UA Local 393 members. Currently housed in a state-of-the-art, 102,000-square-foot facility in San Jose, the Training Center has for decades offered the highest quality apprentice and journey level courses available. The Pipe Trades Training Center is a registered apprenticeship with both the State of California and the Department of Labor, accredited by the Council on Occupational Education and affiliated with Foothill College. The Training Center offers four distinct apprenticeship opportunities in Plumbing, Steamfitting, HVACR and Residential Plumbing. We have over 50 instructors who bring first-rate credentials and vast field experience to enrich your classroom experience as well as dozens of UA Local 393 signatory contractors who offer valuable on-the-job training.
